

Presentation Asset Management Forum

- ❁ intentions, objectives & organisation
- ❁ operational versus strategic asset management
- ❁ organisation information process, categories
- ❁ opinions & reasons to apply/register
- ❁ supporting and interesting developments

intention

- ✿ anticipate on essential changes in the T&D asset management environment, by sharing experience and knowledge between asset management entities
- ✿ facilitate this experience exchange by the realisation of a networking environment, both web enabled and based on personal contacts- meetings
- ✿ create a place for discussion, an information market place for continuous discussion by asset management society facing identical challenges

organisation & objective

- ❁ AMforum: membership based collaboration between asset managers and their associated specialists, addressing:
 - ❁ operational and strategic asset management issues
 - ❁ asset performance and asset management related problems, and applied or experienced solutions
- ❁ Our objective is for asset managers of T&D networks and their associated solution providers to professionally benefit from a permanent - high quality exchange of asset management related challenges, problems and experience.

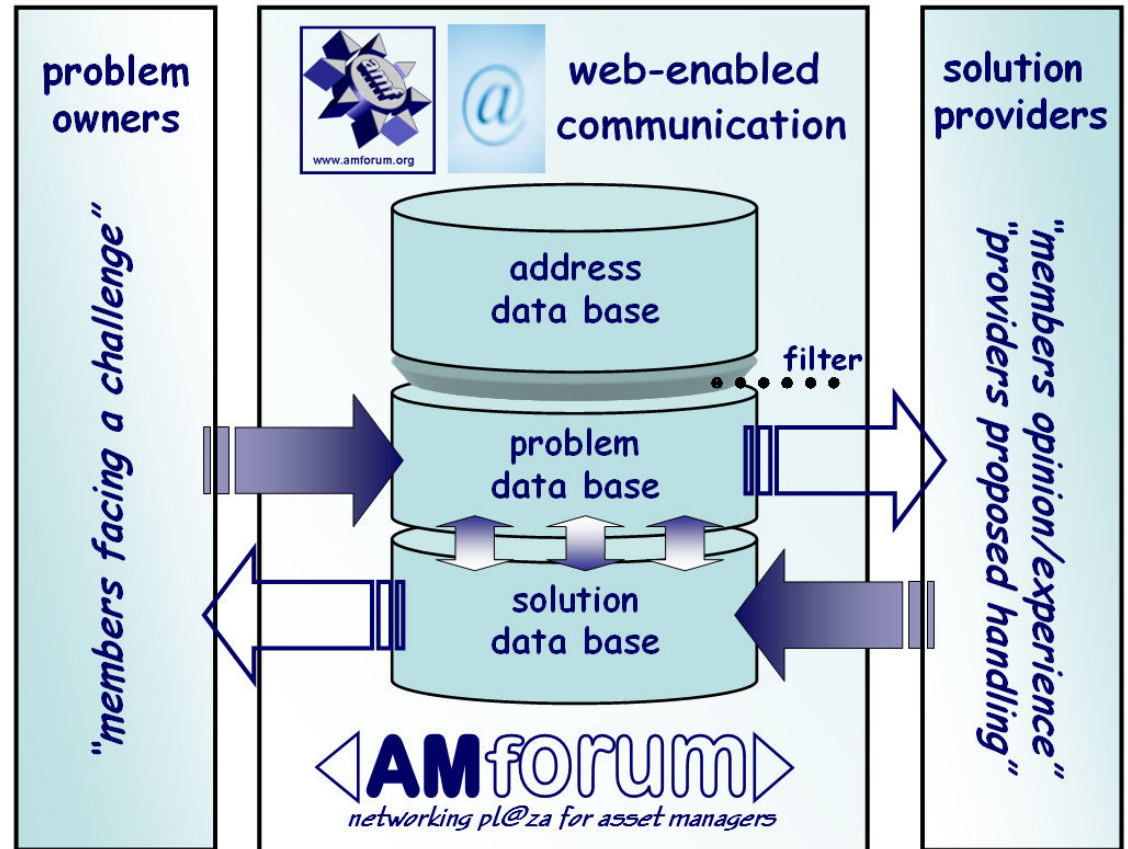

operational versus strategic AM in view of experience sharing organisation

- ❁ Operational asset management considers issues like
 - ❁ asset and organisation performance
 - ❁ applied and experienced practices
- ❁ Operational decisions are characterised by mid/short term, in line with long term, vision based, strategy
- ❁ Operational issues are easy to communicate via e-mail which supports a web-enabled communication process
- ❁ Learning and experience sharing process for strategic issues and tactical consequences need personal contact:
 - ❁ Due to confidentiality and complexity of description
 - ❁ Characterised by brainstorming process, vision, long term
 - ❁ Exchange through organised discussion workshops
 - ❁ Ad-hoc, depending on needs and by requests of members

operational asset management

- 🌀 Cable systems
- 🌀 Overhead lines

some opinions

- ✿ This "warehouse" of experts and skilled engineers reflects an intangible asset like knowledge management.

Claudio DiMario, GRTN, Italy

- ✿ A good benchmarking method on the main topics as practiced by the other Grid Operators helping us to make choices.

Paul Leemans, ELIA, Belgium

- ✿ Beneficial to meet a wide variety of Asset Managers who were able to discuss their problems and solutions openly.

Gary Eastwood, EA Technology, UK

- ✿ AMForum is a window into the practical world of asset management and definitely different from others....

Gerald Sanchis, RTE, France

- ✿ The AM Forum is inspiring because of the intensive, direct interaction between the members of the forum."

Simon Bruijns, Continuon, Netherlands

why choose AMForum
